

Synthetic Certificate of Analysis

NOT FOR ENGINEERING, REGULATORY, COMMERCIAL OR PURCHASING USE

Fixture ID	ML-DEMO-COA-2026	Lot ID	ML-A-001
Candidate alloy	Aluminum 6061	Physical form	CNC machining offcuts
Source process	CNC milling	Declared quantity	500 kg
Origin region	Taiwan	Issue date	2026-09-28

DECLARED CHEMICAL COMPOSITION

Element	Declared mass %
Aluminum (Al)	97.90%
Magnesium (Mg)	1.00%
Silicon (Si)	0.60%
Copper (Cu)	0.30%
Other elements	0.20%
TOTAL	100.00%

DEMO INTERPRETATION NOTE

This synthetic fixture supports a candidate Aluminum 6061 classification for product demonstration only. Surface contamination, mechanical properties and end-use compliance remain unverified.

Prepared by	MaterialLoop AI Demo Generator
Verification	Synthetic / no laboratory test performed
Required control	Human approval before external use
